

Early Access Programme (EAP) framework support

Scalable EAP setup and handover in 6 months

Client Challenges

Lack of EAP experience

- Undefined programme objectives and strategic decisions, with limited prior EAP experience internally
- Unclear governance and decision ownership, leading to ad-hoc requests and execution uncertainty
- Complex coordination across multiple vendors and a demanding short handover timeline

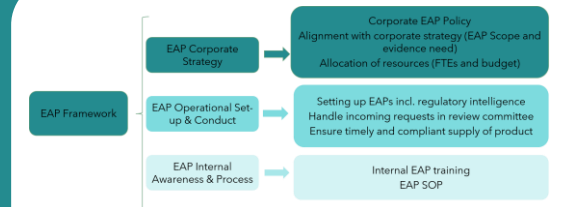

InnoStrat's Solution

EAP processes and framework

- Global EAP policy, SOP and templates developed as a scalable, compliant foundation
- EAP Review Committee established with a clear, documented decision pathway
- Full documentation package prepared to enable a clean handover to the client
- Framework iterated with stakeholder feedback across the selected launch countries

EAP framework

Business Impact

Strategic EAP decisions

- ✓ Clear leadership-aligned EAP Plan with a shared decision rationale
- ✓ Scalable, compliant operating model in place for the selected countries
- ✓ Patient continuity protected through the EAP transfer and delivered within six months

One EAP Plan
